BRISCOES & REBEL SPORT
HEAD OFFICE, AUCKLAND

BASEMENT TO ROOF

BUILDING TRUST

BRISCOES & REBEL SPORT HEAD OFFICE, AUCKLAND

PROJECT DESCRIPTION

The Briscoes Group is one of New Zealand's largest and most successful retail groups. Their new site in Auckland is the flagship Head Office and Distribution Centre for the Briscoes and Rebel Sport brands.

PROJECT REQUIREMENT

The client required a complete basement to roof waterproofing specification that was not subject to multi supplier compatibility issues.

CHALLENGES

The basement to roof specification was future focused and included a 100 year flood proof bund in the power plant room. The combination of precast concrete panels, aluminum framing and glass in the design meant compatibility across multiple substrates was essential.

SIKA SOLUTION

We offered a fully compatible basement to roof specification that could be installed by a single application company to ensure full warranty conditions were met.

PRODUCTS USED

Sikalastic®-152
Sarnafil® Roofing
Sikagard®-62
SikaHyflex®-250 Facade
Sikaflex® AT Facade
Sikaflex®-11 FC
