

SIKA AT WORK

WAIHI LIBRARY SARNAFIL ROOF

ROOFING: Sarnafil® G410-20L Felt

BUILDING TRUST

WAIHI LIBRARY SARNAFIL ROOF

PROJECT DESCRIPTION

A modern, purpose built facility, the Library/Service Centre design turns a new page in terms of comfort and space.

Noisy spaces, quiet places, and room to browse have all been catered for, along with scope for all the services a community needs in a modern Library/Service Centre

PROJECT REQUIREMENT

- Durable Sheet Roofing Membrane with 20 year membrane warranty and a proven track record.

SOLUTIONS · CHALLENGES

There were a number of items that Sika was asked to provide/clarify during the consent application process, including certification for use at falls outside the building code, confirmation of a 20 year warranty for such falls, and an issue with corten run-off.

Sika Sarnafil was the only roofing membrane backed by a proven track record on roofs with little or no fall where standing water could occur.

SIKA SOLUTION

Sarnafil Roofing System
