Section 5: Fire-fighting measures

Suitable extinguishing media : Foam

Sika Injection-306 Hardener

Versio 2.1	on Revision Date: 16.06.2025		SDS Number: 000000127729	Date of last issue: 12.01.2021 Date of first issue: 09.11.2020
			Dry powder Carbon dioxide (CO2) Water spray Use extinguishing measures that a	are appropriate to local cir
			cumstances and the surrounding e	
	Unsuitable extinguishing media	:	High volume water jet	
			Water	
	Hazardous combustion prod- ucts	:	Sulphur oxides	
			No hazardous combustion produc	ts are known
	Specific extinguishing meth- ods	:	Use water spray to cool unopened	l containers.
	Special protective equipment for firefighters	:	In the event of fire, wear self-conta	ained breathing apparatus.
	Hazchem Code	:	1Z	

Section 6: Accidental release measures

Personal precautions, protec- tive equipment and emer- gency procedures	:	Use personal protective equipment. Deny access to unprotected persons.		
Environmental precautions	:	Do not flush into surface water or sanitary sewer system. If the product contaminates rivers and lakes or drains inform respective authorities.		
Methods and materials for containment and cleaning up	:	Pick up and arrange disposal without creating dust. Keep in suitable, closed containers for disposal.		
Section 7: Handling and storage				
Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.		
Advice on safe handling	:	Avoid exceeding the given occupational exposure limits (see section 8). Do not get in eyes, on skin, or on clothing. For personal protection see section 8. Persons with a history of skin sensitisation problems or asth- ma, allergies, chronic or recurrent respiratory disease should

		used. Smoking, eating and drinki plication area.	ocess in which this mixture is being ng should be prohibited in the ap- easures when handling chemical
Sika (-	products Do not breathe vapours/du	
Hygiene measures		practice. When using do not eat or d When using do not smoke.	
Condi	tions for safe storage	 Wash hands before breaks Store in original container. Keep in a well-ventilated pl Observe label precautions. Store in accordance with log 	
Mater	ials to avoid	: Keep away from food and o	drink.

Section 8: Exposure controls/personal protection

Components with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parame- ters / Permissible concentration	Basis
disodium peroxodisulphate	7775-27-1	TWA	0.1 mg/m3 (Persulphate)	ACGIH

Personal protective equipment

Respiratory protection	:	Use respiratory protection unless adequate local exhaust ventilation is provided or exposure assessment demonstrates that exposures are within recommended exposure guidelines. The filter class for the respirator must be suitable for the max- imum expected contaminant concentration (gas/vapour/aerosol/particulates) that may arise when han- dling the product. If this concentration is exceeded, self- contained breathing apparatus must be used.
Hand protection	:	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is nec- essary.
Eye protection	:	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary.
Skin and body protection	:	Choose body protection in relation to its type, to the concen- tration and amount of dangerous substances, and to the spe-

Section 11: Toxicological information

Acute toxicity

Harmful if swallowed.

Skin corrosion/irritation

Causes skin irritation.

Serious eye damage/eye irritation

Causes serious eye irritation.

Respiratory or skin sensitisation

Skin sensitisation

May cause an allergic skin reaction.

Respiratory sensitisation

May cause allergy or asthma symptoms or breathing difficulties if inhaled.

Chronic toxicity

Germ cell mutagenicity

Not classified due to lack of data.

Carcinogenicity

Not classified due to lack of data.
