LONESTAR RESTAURANT,  
AUCKLAND CBD

CONCRETE - REFURBISHMENT

BUILDING TRUST

# LONESTAR RESTAURANT, AUCKLAND CBD

## PROJECT DESCRIPTION

In early 2017 it was found that the steel reinforcement in the external structure of this popular Auckland restaurant was becoming corroded which had in turn led to the development of tension cracks in the building.

## PROJECT REQUIREMENT

Products selected to carry out the refurbishment had to be resistant to all kinds of weather conditions, in order to prevent the seepage of water into the building.

## CHALLENGES

This Lonestar Restaurant is in one of the busiest street areas in Auckland therefore the safety of pedestrians and restaurant staff had to be considered. Getting products delivered on time to this very busy street location was also a significant challenge, as was Auckland's "four seasons in one day" weather.

## SIKA SOLUTIONS

Sika has significant experience tackling these kind of works worldwide. This global experience enabled us to offer the best products and solutions for the concrete repairs and refurbishment work.

## PRODUCTS USED

Sikadur-31 CF Normal  
Sika MonoTop-352 N  
Sika Mono Top-910 N  
Sika MonoTop-438 R

## PROJECT SIZE

500m<sup>2</sup>

## PROJECT PARTICIPANTS

Main Contractor: Chelsea Contracting Ltd  
Product Specifier: Steve Lough, Lough Downey Ltd  
Sika Contact: Dominic Sulisfianto
