ROOFING: Sarnafil G410-20L Felt · Sarnacol 808 · Sarnafil G410-20L · Sarnacol 2170

BUILDING TRUST

ARTHUR MILLER SCHOOL, NEW CLASSROOM BLOCK

Gunac Hawkes Bay install the fully-adhered Sarnafil roofing membrane system at Arthur Miller School.

PROJECT DESCRIPTION

A pilot building project in Napier at Arthur Miller School for the Ministry of Education is setting the standard for generations to come. Judd Dougan Team Architecture were given the opportunity to design a building with eye catching status that will stand the test of time.

PROJECT REQUIREMENT

A durable roofing solution was required to adhere to the plywood roof substrate with a low profile finish to compliment the design of the new classroom block.

SIKA SOLUTION

Drawing on his previous experience with Sarnafil in Scotland, Paul Dougan had no hesitation in specifying the membrane once again.
