NATURE AND ANIMAL PARK PAIRI DAIZA, BRUGELETTE, BELGIUM

REFURBISHMENT: Sika AnchorFix®, SikaCeram®,
Sikadur®, SikaTop®

BUILDING TRUST

NATURE AND ANIMAL PARK PAIRI DAIZA, BRUGELETTE, BELGIUM

PROJECT DESCRIPTION

Pairi Daiza means "enclosed garden" in Old Persian. It is a garden 55 hectares in size, with many natural expanses, centuries-old trees, beautiful flowers and luxurious plants from across the whole world along with 5,000 animals all living together in harmony. The architecture and traditional craftsmanship were created by men with the golden touch from China, Indonesia, Thailand, etc.

PROJECT CONDITIONS

The management called in a sculptor from Bali for the new complex for the white tigers and leopards, and for the new swimming pool for the elephants. This contractor was already working with products from Sika, so it was an obvious choice to also trust in Sika here in Belgium, not only for the products, but also for technical assistance.

SIKA SOLUTIONS

No fewer than 14 different Sika products were used for this project including Sikadur®-30 and Sikadur®-Combiflex® Adhesive, which are solvent-free adhesives based on epoxy resin for the reinforcement of structures.

The high quality cement-bonded mortar for water sealing, SikaTop®-121, was also used, as well as SikaCeram®-270 MultiFlow. This is a deformable, quick-hardening mortar for the adhesion of medium-sized ceramic tiles.

The following products were also applied: poured mortar SikaGrout®-316, fast-hardening anchoring adhesive Sika AnchorFix® and other Sika adhesive and joint filling compounds.

PROJECT PARTICIPANTS

Building owner: Pairi Daiza

Supplier: Sika Belgium nv

Our most current General Sales Conditions shall apply.
Please consult the Data Sheet prior to any use and processing.
