

SIKA AT WORK

UNIVERSITY CAMPUS, VARAŽDIN, CROATIA

JOINT SEALING: SikaHyflex®, Sanisil®, Sikasil®

BUILDING TRUST

UNIVERSITY CAMPUS, VARAŽDIN, CROATIA

PROJECT DESCRIPTION

In December 2017, a new University Campus in the town of Varaždin was officially opened. The construction works started in 2016 and the new student campus is one of Sika Croatia's biggest projects – the campus would provide a home for more than 500 students on 18,000 m².

PROJECT REQUIREMENTS

The main requirement on the whole project was to use good and durable construction materials. Sika sealing and bonding solutions were used for facade, roof and wet rooms.

SIKA SOLUTIONS

SikaHyflex®-250 Facade – basalt grey for facade applications

SikaHyflex®-250 Facade – grey for roofing applications

Sanisil® – white – for wet rooms

Sikasil® – colors ash and manhattan – for wet rooms

Total value: 15,000 CHF

PROJECT PARTICIPANTS

Investor: University of Zagreb, Student Center Varaždin

Project: Sangrad d.o.o.

Contractors for Sealing and Bonding: Alu kon, VZ građenje i projektiranje, Keramika Friščić
