ROOFING: Sikalastic®

BUILDING TRUST

SIKALASTIC®-621 – AN EFFICIENT SOLUTION

For where the roof details are complicated

Many projects around the world have proven the excellent solution for complicated roofing details with Sikalastic®-621.

CITY POINT, EDINBURGH, UK

An existing Sarnafil® roof which has had steel columns bolted through the Sarnafil membrane . These were installed after completion of the Sarnafil® roofing works and have created leaks.

FEUERWEHRMAGAZIN , BINGS , AUSTRIA

Plate connection and wall connection.

Before

After

JARVIS CENTRE GUILDFORD, BRIGGS, UK

Detailing around steel work on Sarnafil® adhered roofing system for refurbishing the roof.

SIKALASTIC®-621 – AN EFFICIENT SOLUTION

For where the roof details are complicated

HAGGERSTON SCHOOL, HACKNEY, LONDON, UK
A detail that would be difficult to install with single ply membranes due to the close proximity of a parapet wall to the upstand.

ERESBY HOUSE, LONDON, LONDON, UK
Various details with pipe penetrations.

MEVAG AG BETTENWIESEN SWITZERLAND
 Various details of penetrations of steel columns.

TAKEUCHI KOGYO HQ, JAPAN
 Various details on the roof.

SIKALASTIC®-621 – AN EFFICIENT SOLUTION

For where the roof details are complicated
